The **MK6 generation** builds on the rock-solid reputation Tvan's have established over 26 years. They are known for their bulletproof build and go-anywhere off-roadability since they first hit the market.

For the first time since the Tvan's introduction, the side body profile undergoes a substantial redesign in the MK6. This change allows for **greater headroom, improved practicality, and a more spacious feel**, particularly toward the front of the van.

The shape of the side windows, one of the Tvan's most distinctive visual features, has also changed to suit the new body shape. Noticeably **20% larger windows** will let **significantly more light** into the interior, enhancing the feeling of spaciousness. **Improved interior lighting** will further contribute to a **brighter and more modern feel**.

The Quick Cover™ awning has been redesigned to offer significantly **more coverage** and **increased headroom**, particularly at the front of the van.

The new front boot for the Tvan MK6 receives a substantial refresh with **new options and features** including:

- a **40% larger fridge compartment** and
- a **20% larger pantry**.

The rear deck receives **aesthetic and structural improvements**.
