

BUILT FOR COMFORT - MADE FOR ADVENTURE

# Big Touring Comfort. Smarter Hybrid Footprint.

The Lost Trak 16 is a hand built off-road hybrid caravan designed for travelers who want genuine internal living without the size of a full caravan. Combining a narrower hybrid boy with a full compliment of caravan comforts, marine grade Victron power and Australian built engineering, this is a serious touring machine.

| 860kg | 440Ah | 730W | 220L |
|---|---|---|---|
| PAY LOAD | LITHIUM - STANDARD | ROOF SOLAR - STANDARD | FRESH WATER |

## Spacious Internal Layout

True indoor living with practical bench space, abundant storage and comfortable lounge and bed quarters

## Hybrid Touring Ease

Narrower hybrid width, aerodynamic front profile, lightweight and efficient to tow, compact hybrid footprint

## Victron Marine Grade Power

Reliable off-grid capability with powerful Victron electrics, high performance lithium batteries & roof top solar power

## Built For Serious Off-Road Travel

Cruisemaster ATX 3000kg airbag suspension, hot dipped galvanised chassis, complete Australian engineering
